### Vision Statement

We, the Executive Board of Directors of the Arizona Region of USA Volleyball, are dedicated to the principle that the members of the Arizona Region must have access to a broad array of volleyball experiences throughout the region. We are guided by high ethical standards, a vision for the future of volleyball in the region, and an appreciation of the value of volleyball as a tool for the development of junior members as well as adult members. We are committed to the principles of responsible management of regional resources and are dedicated to the goal of making volleyball available to all interested parties throughout the region.

We systematically assess the dynamic changes in the game of volleyball to foster modifications in policies and practices required for the Arizona Region to remain effective at providing these opportunities for everyone. We focus on the current and future needs of players, coaches, and officials in order to provide current and practical information and experiences. We continue to strive to provide effective and meaningful opportunities to help prepare players, coaches, and officials for further advancement in the volleyball community at large.

In fulfilling our trust, we balance the responsibility to provide statewide governance and oversight with sensitivity to the responsibility of the Executive Board of Directors as stewards of the respective positions we represent. We accept the responsibility for the resources and mission entrusted to us by the members of the Arizona Region.
